Women in Farming

What is Women in Farming?

The roles of women on farms are significant and varied. Professional support and training to fulfil all roles are often unavailable or attendance at events is not possible due to distance and time. This is where Women in Farming steps in! Women in Farming is about tapping into and sharing the wealth of knowledge that is your neighbour, your friend, your friend's friend or the new girl in town. If a local expert isn't available Women in Farming can bring one to you!

There is great benefit in discussing issues between local ladies, to help each other improve and excel in the many tasks undertaken within our farming enterprises. Meetings generally take the form of organised discussions between local branch members. There are opportunities to run workshops and events with guest speakers or experts on topics of interest as identified by the branch. Great importance is placed on meeting the needs of members at Women in Farming branch meetings.

For enquiries or if you are interested but can't attend, call *insert name and contact number*.
